Art Unit: 1755

DETAILED ACTION

Allowable Subject Matter

Claims 1-16 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art fail to disclose or suggest a glass composition having the composition as recited in the instant claims, which result in the recited properties, specifically, the difference between the HTV temperature and the liquidus temperature being at least 150°F.

The closest prior at is deemed to be WO 00/73231 A1 by Wallenberger. Wallenberger discloses a similar composition but does not teach the range of the difference between the HTV and Liquidus temperature being greater than 150°F. Wallenberger actually teaches away from the temperature difference being greater than 150°F.

Applicants' have submitted an IDS and a copy of the European Patent Office Search Report. The Examiner has considered all of the documents cited on the search report and has determined that the none of the cited art discloses or suggests a glass composition having the composition as recited in the instant claims, which result in the recited properties, specifically, the difference between the HTV temperature and the liquidus temperature being at least 150°F.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1755

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth A. Bolden whose telephone number is 571-272-1363. The examiner can normally be reached on 9:30 am-6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
